

The scenic Praxtour route films are now available for interactive usage in group exercises. This adds an extra dimension to the exercises: it will be different, better, more beautiful and more realistic! The route film, which is played on a large screen, provides a great challenge which makes you feel like you are really cycling the route. Ride along Lake Iseo, climb the Alpe d'Huez or some famous Cycling classics. There is plenty of variation with many Praxtour route films. PraxSpin plays your movie in a time pre-set by the instructor, which allows any route to be completed within the duration of the lesson. By showing distance, time, gradients and cadence on the screen, the instructor's lesson will be more realistic. When the gradients increase, just shift up and reduce the RPM. Never before has a group exercise offered so much satisfaction.
